

Dhruvin Rupesh Soni

Developer-Experience & AI Tooling Engineer | Agentic Workflows & Custom Coding Agents | DevEx Automation
dhruvinrsoni@gmail.com • linkedin.com/in/dhruvinrsoni • github.com/dhruvinrsoni • dhruvinrsoni.github.io • Pune, India | Open to relocation

SUMMARY

Senior Software Engineer (6+ yrs) who builds the tools that make engineers faster and safer. Designs custom coding agents, agentic test-generation workflows, and git/DevEx automation codified as reusable, version-controlled SOPs. Ships production-grade developer tooling and open-source AI projects (88-skill agent library, MV3 extension with 1,233 tests) at \$0 incremental cost.

FOCUS

Agent platforms, coding tools, eval/test infra, and developer-experience automation – turning ad-hoc productivity into repeatable, governed engineering systems.

EXPERIENCE

Senior Software Engineer — Zebra Technologies

Nov 2022 – Present

Pune, India (Hybrid)

- Engineered custom GitHub Copilot agents with quality standards codified as Markdown SOPs; the agents autonomously generated 33,586 lines of test code in 7 days (~80x faster than manual) with zero production incidents.
- Architected an AI “Scrum-Master” automation suite (sprint-health dashboards, auto-retrospectives, semantic ticket-deduplication), delivering enterprise-grade AI tooling at \$0 incremental cost by ethically reusing existing authenticated LLM sessions.
- Cut code-review/documentation cycle time ~10x via custom git-context automation adopted as a team SOP, and reduced critical-path cycle time ~15% through an AI-first developer workflow.
- Built a Model Context Protocol (MCP) integration over an enterprise DB2 schema, creating secure groundwork for natural-language (Text2SQL) analytics; authored a “Comparative Analysis of GenAI Strategies” that became the team’s model-selection and prompt-engineering standard.
- Led an AI-augmented test-coverage program across an Angular + Spring Boot service pair: ~10-15% → 70-85% coverage (100% on a critical module), 900-1,135+ test cases across 50+ modules, at \$0 added budget.

Software Engineer II — Zebra Technologies

Sep 2020 – Nov 2022

Pune, India

- Built Jenkins-on-GCP CI/CD with GKE + Helm and self-service pipelines, removing manual toil for developers; led SVN→Git and MongoDB→Atlas migrations off legacy infrastructure.
- Shipped developer-productivity utilities – a Python MongoDB query tool (~95% manual-effort cut), docs/automation (~67% setup-time cut), and an SFTP onboarding utility (Shell + Java) that took onboarding from days to minutes.

Software Developer — Reflexis Systems (acquired by Zebra Technologies)

Jul 2019 – Sep 2020

Pune, India

- Built the backend for an AI performance-management product (Java, Spring Boot, MongoDB, REST, Spring State Machine), shipping production features managing thousands of records.
- Drove rollout quality across a 111-client deployment: resolved 100+ issues at a 45% defect-burndown rate, lifting client satisfaction.

PROJECTS

Agentskills Garden *AI agent skills library*

Authored 88 hierarchical AI-agent skills – a reusable, composable skill library for driving coding/agent workflows; design pattern mirrors the Markdown-SOP agents shipped at work.

SmrutiCortex *TypeScript, Chrome MV3, Ollama*

Privacy-first Chrome MV3 history-search extension with optional local AI (Ollama); 1,233 unit + 45 E2E tests across 9 scorers; published to the Chrome Web Store.

Samvada Studio *React 18, TypeScript, Vite*

Multi-provider LLM chat UI – 6 providers, 35+ features, in-memory key security; launched on Product Hunt.

TECHNICAL SKILLS

AI Dev Tools & Agents: Custom GitHub Copilot agents, Model Context Protocol (MCP), VS Code Agent Mode, Markdown SOP/skill authoring, prompt engineering, Ollama (local LLMs)

Agentic Testing & Eval: Agent-driven test generation, coverage programs, eval scorers, unit + E2E test infra (Jest/JUnit-style), Text2SQL groundwork

DevEx & Automation: Git-context automation, code-review/doc-cycle tooling, self-service CI/CD, Jenkins, Helm, internal knowledge tooling

Languages: Java, TypeScript, Python, JavaScript, Shell, SQL

Backend & Web: Spring Boot, REST APIs, Angular, React 18, Node, DB2, MongoDB

Cloud & Platform: Google Cloud (Cloud Run, GKE), Docker, microservices, Secret Manager, Trivy, observability/alerting

Certifications: Google Cloud AI Agents Edition 2025 & OnBoard 2026, Vertex AI Prompt Design, BigQuery, Core Infrastructure; Microsoft VS Code Agent Mode 2025; GCP Skills Boost Gold League

EDUCATION

B.E. (Hons.), Computer Science 2015 – 2019
BITS Pilani, K. K. Birla Goa Campus
Coursework: Data Mining, Parallel Computing, Number Theory, Graphs & Networks, Computer Architecture. First Rank in Mathematics (school batch).

CERTIFICATIONS & RECOGNITION

Certifications: Google Cloud – AI Agents Edition (2025); Google Cloud – OnBoard Edition (2026); Vertex AI Prompt Design; Derive Insights from BigQuery; GC Fundamentals: Core Infrastructure; Migrate MySQL to Cloud SQL; Microsoft – VS Code Agent Mode (2025)

Awards: 5-Year Service Award, Zebra Technologies (2024); Google Cloud Skills Boost – Gold League (22,395 pts) •

Languages: English (professional), Gujarati (native), Hindi
